Jeffrey Crist, PE - President of [Gatter & Diehl Inc.](#) was an invited speaker at the PUC En Banc Hearing in Pittsburgh. Mr. Crist presented to PUC Chairman Robert Pawelson, Commissioners John Coleman, James Cawley, Pamela Witmer, Gladys Brown and other industry audience participants regarding the positive impact of CHP applications, and CHP considerations under the PUC ACT 129 program.

"As energy costs become a larger percentage of Corporate America's overall expenses, consumers are becoming more driven to find technology alternatives that offer substantial energy savings, internal benefits and quick paybacks. Under the right circumstances, CHP is a very viable solution and ACT 129 is a key component to incentivize customers."
