

Penn State Hershey

Medical Office Building - Benner Pike

State College, PA | 9,000 sq ft | \$ 1.4 Million

Project Info

Gatter & Diehl's design team provided total MEP/FP engineering for this 9,000 sf Penn State Hershey outpatient facility located in State College, PA. The facility provides Family Medicine, Vascular Surgery, Internal Medicine, Cardiology and Laboratory services . Areas within the building include Treatment, Exam Rooms, Laboratory, Nurses Station, Administration, Waiting and various ancillary support spaces.

The project was performed through the Penn State Facilities Department in State College as a part of the University Health Services Department. Gatter & Diehl performed site surveys to obtain existing conditions and participated in numerous A/E and Owner meetings, conference calls and on-line meetings for complete coordination of Design, Bidding and Construction Administration purposes.
